Valley Industries Family of Brands

The Valley logo features the word "Valley" in a bold, orange, sans-serif font. A horizontal line is positioned above the letters "lley".The Valley Pro-Series logo consists of the word "Valley" in orange with a horizontal line above it, and the words "Pro-Series" in a smaller, black, sans-serif font directly below.The DAVIDSON logo is the word "DAVIDSON" in a bold, yellow, sans-serif font, with a registered trademark symbol (®) to its upper right.The AMERICAN POWER logo features the words "AMERICAN POWER" in white, sans-serif font, set against a background of horizontal stripes in blue, white, and red.The TUFFLOCK logo is the word "TUFFLOCK" in a bold, yellow, sans-serif font, with a registered trademark symbol (®) to its upper right.

Valley® is our line of air, hand, and power tools for the professional and weekend Do-It-Yourselfer alike. With over 25 years of experience, the Valley® line incorporates the best products chosen and weeded out over the years. Valley Industries is one of the largest stocking distributors of striking tools and long handle construction tools on the West Coast of the United States. We stock everything from components, replacement handles, to finished products in our warehouse in California so that we can produce custom assemblies immediately for our clients. Much of our striking tool assembly work is done in-house at our assembly plant in California with American and imported components giving us the opportunity of re-verifying the quality before final shipment to the customer. With over 3,500 products the Valley® line offers a broad range of tools with specialties in construction/demolition bars, striking tools, shovels, scoops, garden tools, and a broad range of masonry and drywall trowels. At Valley Industries we believe growth and innovation is an integral part to our success so we are constantly adding new products into our product line.

Valley Pro-Series™ is an exclusive line of select products from the Valley line which follows our motto *"Designed by Professionals for Professionals™"*. These tools have been designed and extensively tested for the professional market. The Valley Pro-Series™ line is defined by its attention to detail and quality.

American Power® electrical products encompasses everything from 12V automotive accessories, battery cables, battery terminals, booster/jumper cables, extension cords and accessories, to work lights. Our extension cord range covers everything from light duty indoor household cords to extreme duty 10 AWG industrial extension cords. As the name connotes, a portion of the line is manufactured domestically in the USA. American Power® electrical products are able to service the automotive and hardware industries completely.

Davidson® is our line of industrial quality cutting and abrasive products designed for the automotive, construction, and industrial users. In our abrasive line we carry cutting wheels for metal and masonry, grinding wheels for metal and masonry, grinding stone wheels, files, flap discs, and sandpaper. Davidson's saw blade range includes M-2 molybdenum carbide to C-3 carbide circular saw blades, American made bi-metal hacksaw blades, and American made bi-metal reciprocating saw blades for wood and metal. The Davidson line also has an expanding range of drill bits, diamond wheels, files, and hand saws.

Tufflock® security products is our line of locks and hardware for automotive, home, and industrial applications. We have automotive security locks, brass padlocks, laminated locks, industrial all steel locks, door lock sets, and household door hardware. With our high quality and economical price point, the Tufflock® brand has been a proven seller in automotive, general retail, hardware, and industrial/rental markets.

Magna-Cut® is the newest addition in Valley Industries family of brands. The Magna-Cut® line is focused on the price sensitive segment of the cutting wheels industry. Our extensive line of abrasive cutting wheels, grinding wheels, flap discs, and saw blades is designed for the price conscious end user who is not using the products on a daily basis. While Magna-Cut products will be price competitive our quality standards will not be sacrificed in favor of pricing. We will continue to maintain our standards to meet or exceed industry standards to protect the safety of our users.
